A permit shall not be issued for a location that is within one hundred (100) feet of another location for which a permit has been issued for the same time.

The use of a mobile sound amplification equipment shall be exempt from the permitting requirement of this subsection. Sound amplification produced in conjunction with a Town sponsored event, festival or parade permit shall be exempt from this entire subsection.

B. The limitations on the operation of sound amplification equipment in subsection A of this section shall not apply to the operation of horns, sirens, or other emergency warning devices actually being used in emergency circumstances.

§92A.05 PERMITS FOR ADDITIONAL AMPLIFICATION

A. The Matthews Police Chief or his designee shall serve as the Noise Control Officer. The Police Chief may delegate the Town Safety and Risk Management Coordinator to investigate a noise complaint. The Town Safety Coordinator does not have enforcement power.

B. Application. The application for a permit for additional amplification under section .04 shall be submitted to the Noise Control Officer at least fifteen (15) working days in advance of the planned use except in cases of emergency. The application shall designate an individual person or persons who shall be in control of the sound amplification equipment and assure that its use complies with the terms of the permit.

C. Notice of tentative approval. Upon tentative approval, the applicant for a permit shall be responsible for mailing or otherwise delivering to the occupants of each property within a one thousand (1,000) foot radius of the facility for which the permit has been granted, as shown on the tax maps of the county, a notice stating the date and hours of the event. The notice shall be delivered at least seventy two (72) hours in advance of the event. The permit shall not be actually granted and issued until the applicant submits an affidavit to the Noise Control Officer that such notices have actually been mailed or otherwise delivered.

D. Limits on hours. No permit shall be issued which will have the effect of allowing more than twenty (20) hours of excess amplification per year at any place of public entertainment having a capacity of one thousand (1,000) or more persons or ten (10) hours of excess amplification at any other location. Permits shall be tentatively approved and subsequently granted by the Matthews Police Department in the order of receipt unless permits for twenty (20) or more hours have previously been issued for the same or other locations with a one thousand (1,000) foot radius of the facility in the same calendar year, in which event the applicant shall elect whether to limit his request so as to keep the year's accumulated hours of excess amplification in that location below twenty (20) hours or select another location.

E. Not permitted in residentially occupied

boundaries. In no event shall a permit be granted which allows the creation of sounds registering more than seventy (70) db(A) anywhere within the boundary line of the nearest residentially occupied property.

F. Denial: issuance of exceptional permit. If an applicant has been denied a permit under this section and believes the denial is illegal by virtue of applicable state or federal law, he shall promptly submit a copy of the denied permit application, together with a short statement of the reasons he believes he is entitled to a permit, to the Town Manager. The Town Manager shall have the discretion to grant an exceptional permit waiving location, time, and/or db(A) requirements, upon his determination that the applicant has made a substantial showing of legal entitlement. Any such exceptional permit shall be promptly reported to the Board of Commissioners.

A. A police officer may issue a notice of violation as provided in the Code subjecting the violator to a civil penalty of \$100.00, which penalty may provide for a delinquency charge of \$10.00 upon non-payment, in which penalty and delinquency charge may be recovered by the Town in a civil action.

B. The violator may be charged with a misdemeanor and be subject to a fine up to \$500.00 and order thirty (30) days in jail pursuant to NCGS Section 14-4.

C. A civil action seeking a penalty of \$500.00 per day of violation plus an injunction and order of abatement may be directed toward any person creating or allowing the creation of any unlawful noise, including the owner or person otherwise having legal or actual control of the premises from which it emanates.

D. A police officer may issue a notice of violation, as provided in this Code, subjecting the violator of Section 03A(1) to a civil penalty of \$200.00, which penalty may provide for a delinquency charge of \$10.00 upon non-payment, in which penalty and delinquency charge may be recovered by the Town in a civil action.
